About us

- Established in 2012. Headquartered in Nashik with branch offices in Pune & Kolhapur(Bavada)
- We are an expert group of young and passionate engineers focused on delivering cutting edge process automation and analytics
- We have expertise in automating Medical Practice Management
- We have successfully served several other business domains namely Civil Construction, Academic Institutions, Advanced Mobile Apps, Websites, customized software and support services
- We are experts in utilizing latest technology and process trends morphed seamlessly with traditional work culture
- Our clients are very satisfied. They always spread a word about our quality, sincerity and dedication to success

Are you a medical practitioner?

- Do you practice with handwritten prescription
- Do you mark appointments in paper register
- Do you waste time in checking appointments for weeks manually
- Do you follow all mandated NABH rules for prescribing patient
- Do you face everyday collection problem.
- Do you have records of pending fees of patient's last visit
- Can you provide your practice data for college/university as study material
- Do you still depend on your reception staff(which changes quarterly) for all your important work/tasks
- Do you struggle for old papers and files in case of any legal issue
- Do you have all your patient medical history of years right from first visit
- Do you have any study material of your own practice of decades (how you handled critical cases, what medicines, diagnosis you prescribed)
- Do you have proof in case of any legal issue for your prescription

Hope we made you
think for a while!!

Yes...You Need To Become Digital..!

Have a look at our kick points – NABH accredited

- Medical History of patients (Photo, Id, Medications, IPD Reports etc.)
- Safeguard against legal aspects.(Incorrect medicine intake, incorrect prescription)
- Systematic approach and distribution of work among team doctor, staff, admin, billing, pharmacy, lab
- Proper payment handling with track of arrears from patient
- Manage referring doctors automatically sending greetings, thanking for referrals
- Easy Documents - Discharge cards, cashless/reimbursement, IPD billing and stock management
- Independent of staff for various operation, if anyone is on leave/left job
- Proper treatment of patients with justified approach.(Correct sequencing, scheduling, reminder of appointments, SMS communication,)
- Mobile app support for patients, to keep their large bundle of file within Mobile itself
- Take plug and play backup for all data securely anytime.
- Single click issuance of various letters. (Insurance, Medical Leave, Admission etc.)
- Manage holiday calendar for doctors and staff
- Set limit on appointments
- Rescheduling alerts for receptions
- Demographic Analytics, Excel Reports, CA audit reports, Income/expense Reports
